ABOUT US

PowerOne was started in 2007 by transportation professionals who have over thirty years of transportation experience in both logistics operations and transportation technology.

We offer outsourced freight management, shipment tracking and 24/7 customer service to our customers:

PowerOne maintains general liability insurance of \$5,000,000 and contingent cargo coverage of \$100,000.

COMPANY PROFILE

PowerOne is a freight management company focused on minimizing your distribution costs through strategic transportation planning. We provide a broad spectrum of customers, ranging from Fortune 100 companies to small privately held manufacturers, with the highest level of service in the business.

Our goal is to become a cost effective part of your operations, acting as a dedicated one-stop source for your trucking needs.

Our commitment is to get your freight delivered on-time and on-budget – **EVERY TIME.**

WHAT WE DO

Our dispatchers select carriers that meet your quality requirements and timelines, all on a cost effective basis. As your outsourced traffic resource, we:

- Increase your productivity by allowing your internal team to focus on core competencies.
- Ensure the quality and timeliness of your shipments by gaining a thorough understanding of your shipping needs and utilizing the most reliable carriers.
- Provide complete carrier management, including pick up and delivery appointments, directions and shipment confirmation.
